Our Business Platforms

Since 1919, BSC Industries has remained committed to delivering world class products, engineered solutions, and outstanding customer service. Organized around four business platforms, the company is continuing on its path of serving customers not only in New England, but nationally and internationally.

Bearings and Power Transmission Products
Our core product offering includes the complete range of bearing and power transmission products from the world's best manufacturers.

- BEARINGS-ROTARY & LINEAR
- BELTS AND PULLEYS
- BRONZE
- CHAIN & SPROCKETS
- CLUTCHES, BRAKES
- COUPLINGS & SHAFT COLLARS GEARs
- GEAR REDUCERS & GEAR MOTORS
- MOTORS-AC/DC
- SEALS & O-RINGS

Electrical and Automation Products
Products ranging from AC drives, motors, enclosures, and connectors to DC motors, actuators, motor controls, power supplies, stepper motors, and more.

- AC/DC DRIVES & MOTORS
- CIRCUIT PROTECTION
- CONNECTORS
- ENCLOSURES
- MACHINE SAFETY
- PLC/HMI & PROCESS CONTROL
- PNEUMATICS
- PRECISION MOTION CONTROL
- WIRE/CABLE

Engineering and Value Added Services
Extensive technical, engineering, and application support for our product lines along with other unique value added services.

- APPLICATION ANALYSIS
- TECHNICAL SUPPORT
- BEARING LUBRICATION SERVICES
- CLASS 10,000 CLEANROOM
- ELECTRO-MECHANICAL SUB-ASSEMBLY
- VENDOR MANAGED INVENTORY (VMI)

Integrated Control Systems
Complete design and integration of coordinated factory automation and process control systems.

- DESIGN/BUILD/TEST
- EXISTING MACHINE UPGRADES
- FIELD SERVICE
- MOTION/TENSION CONTROLS
- PLC/HMI PROGRAMMING
- START-UP/ COMMISSIONING
- UL508A LISTED
- NFPA CERTIFIED
Since 1919, BSC Industries has been an independently owned industrial distributor with 7 conveniently located New England branch locations. Our knowledgeable sales staff is ready to assist you with your bearing, power transmission, electrical, automation, and control system requirements.

For over 30 years we have engineered and manufactured a wide variety of integrated control systems at our facility located in Providence, RI. Our staff is comprised of experienced design engineers and assembly technicians, and over the years we have been involved in projects that range from a simple single AC motor controller to complex multi-axis motion and process control systems. With our experience...we can help you with just about any motion and process control application.

**Our Capabilities**

- Complete design and integration of coordinated motion control and process control systems
- Design, Build, Program, Test, Start-Up, and Field Service
- New designs or existing machine upgrades including electrical and mechanical components
- Extensive system documentation
- UL 508A listed panels available

**Common Applications**

- Winders and Payoffs
- Coating and Bonding Lines
- Slitters
- Wire Drawing
- Temperature Control
- Flying Shear
- Stamping and Presses
- Tension Control
- Rolling Mills
- Web Handling
- Cut-to-Length Lines
- Conveyors

**Typical Control Components**

- AC/DC Drives and Controls
- Servo and Stepper Drives & Controls
- Programmable Logic Controllers
- Pneumatics
- Touch Screen HMIs
- Panel Meters
INTEGRATED CONTROL SYSTEMS

3 Drive System with Temperature Control

Explosion Proof

Completed System Test

Operator Panel with Touchscreen HMI

Multi Drive System with Data Acquisition

Operator Control Station

Work in Process
