- Maintenance free system
- Minimal or reduced downtime
- No lubrication
- No expensive oil baths
- No retensioning
- Quiet operation
- Smooth running
- Accurate and precise operation
- Resistant to chemicals, contaminants and caustic washdown solutions

APPLICATION SUCCESS

INDUSTRY

- Lumber Mill

APPLICATION

- Band Mill

ORIGINAL DRIVE DESCRIPTION

- Roller Chain

The mill was changing 2-3 sets of chain per year at a cost of \$3-5K per set. By replacing roller chain with Gates Poly Chain® belts, improvements were seen in uptime, productivity, and safety. After 5 years, the belts were still running with no maintenance required.
